>>J

SIA2000 Secondary Ignition Adapter >>K

EETA309A15

Distributorless Ignition Kit for waste spark and Direct Ignition Systems. Direct Ignition Systems also require optional ignition coil adapters.

>>K

Low Amp Current Probe >>L

EETA308A

Low amp current probe based on the latest Hall-effect technology. Specifically designed for use with the Snap-on® Vantage® power graphing meter and the MODIS™ system. Allows for accurate low amp circuit testing without intrusive wire probing or need to disconnect the vehicle battery. Test parasitic draw, ignition coils, injectors, fuel pumps, relays and electric motors and more. Current range, 20A/40A AC Peak or DC. Working voltage, 150V AC RMS or DC.

>>L

Split Lead Adapter >>M

EEMS301A05

Required for the use of one or two optional pressure transducers. Gives the MODIS™ system the ability to display up to two pressure measurements in scope mode and RPM simultaneously.

>>M

Pressure/Vacuum Transducer with Cable >>N

EEPV302AL 100 PSI

The pressure and vacuum transducers provide the signal for real-time waveform displays of pressure/ vacuum readings over various time bases in the MODIS™ system scope mode. Useful for fuel, transmission, power steering, ABS, hydraulics, vacuum, AC and more. (Requires EEMS301A05 split lead adapter.)

>>N

Pressure Transducers w/Cable >>O

EEPV302AT 500 PSI (also available)
EEPV302AH 5000 PSI (also available)

>>O

Transducer Extension Cable >>P

EAX0024B30A (6-foot cable)

>>P

Diagnostic Waveform Demonstrator >>P

EESX306A

MODIS™

ACCESSORY CATALOG

MODIS™ SYSTEM ACCESSORIES

European Import Vehicle Communication Kit for MODIS™ >>A EEMS320C03

Coverage of Audi, BMW, MINI, Mercedes-Benz, and Volkswagen vehicles. Kit includes vehicle communication software and adapter kit.

Heavy Duty Vehicle Communication Kit >>A EEMS301A04

Provides SAE J1708 and J1587 compliant electronic engine control, ABS, transmission, instrument and emission system coverage on class 4 – 8 vehicles on MODIS. Display live parameter data readings, including trip data. Read and clear diagnostic trouble codes.

Flat Extension Data Cable >>B MT2500302

Flat cable provides a clean and safe way to pass the Scanner™ scan tool data cable from the engine compartment with the hood closed for road tests with out damaging the cable of the vehicle. For use on vehicles where the ECM module connector is located inside the engine compartment.

OBD-II Extension Cable >>C MT2500301

This short extension cable moves the weight of the OBD-II adapter and Personality Keys™ vehicle ID system from under the dash at the factory OBD-II connector to the floor or console. Provides easier access to the Personality Keys™ vehicle ID system and limits the possibility of the data cable coming loose from the OBD-II connector during testing.

Flexible Gas Analyzer (FGA) >>D EEEE300AMO

Lightweight, five-gas analyzer features "go anywhere" portability with its own rechargeable internal battery. Live gas display with the MODIS™ system includes CO, O₂, CO₂, HC and NO, plus AFR, Lambda or GPM readings and catalytic converter test. Heavy-duty sample handling system with automatic water removal. Use your MODIS™ to display gas reading in both digital and graph mode, custom gas, X/Y plotting and min/max information. Meets BAR 97 and European OIML accuracy standards. Includes FGA module, 20' sample hose and probe, power accessories, 120V to 12V power supply, RS232 cable.

Gas Calibration Kit >>D EAK0213L11A

Includes adapters, hoses and gauge. Calibration gas not included.

On-line Training Courses

TRNPASSPORT

Quickly become a power user with these on-line courses. Learn effective navigation, component testing and lab scope use utilizing virtual diagnostic units. 24/7 access allows training that fits your schedule. For more information visit www.snapontraining.com.

MODIS™ Auxiliary Battery Pack >>E

EEMS301A01

Interchangeable battery pack gives the MODIS™ system users the opportunity to keep a spare battery pack charged up and at the ready.

MODIS™ Auxiliary Battery Charging Station >>F

EEMS301A02

MODIS™ auxiliary battery charging station with 110v converter and power cord (battery sold separately.)

MODIS™ Soft Storage /Carrying Case >>G

EEMS301A06

Store/transport your MODIS™ and accessories. Compartment for the MODIS™ unit. Two large storage compartments for cable sets. Four zippered compartments, two are translucent for visibility. Stain resistant polyester. Comfortable handle for mobility. Fits in bottom drawer of Snap-on® tool storage units.

Snap-on® Rolling Diagnostic Workstation for MODIS™ >>H

EEKR303A

Bring all necessary diagnostic tools to the vehicle for increased efficiency. Designed specifically for Snap-on® Diagnostic Handheld Equipment. Hold the MODIS™ system, Snap-on® Scanners™, Vantage® graphing multimeter, MicroVAT electrical system tester, or other tools on the ruggedized molded work top. Sturdy 2-drawer storage space for adapters, cables, connectors, manuals, and tools. Workstation slides conveniently into the KRL1018 or KRL7018 Snap-on® Docker Locker®.

MODIS Screen Guards >>I

EAK0253B20A 5 Pack

Crystal clear poly screen guard securely adheres to the screen without use of sticky adhesives. Screen savers are easily applied/removed in seconds.

PCLink™

EESP311A01

Wirelessly connects MODIS to a PC for file viewing, saving, printing and sharing. Includes wireless 802.11b CompactFlash adapter for MODIS.
